avneetsingh6510@gmail.com

**MCA 1st Year Student | Aspiring Software Developer & Tech Enthusiast**
A highly motivated MCA student with a strong passion for software development and Front-end (UI/UX) design. Skilled in Python development, AI projects, and web application development. Experienced in Front-end development through an internship, with hands-on exposure to designing user-friendly interfaces. Eager to contribute to innovative projects by utilizing emerging technologies to create exceptional Front-end experiences and enhance user interfaces.

| EDUCATION QUALIFICATION | INSTITUTE | PASSING YEAR | EVALUATION |
|---|---|---|---|
| **MCA (Masters of Computer Application)** | Don Bosco Institute of Technology (GGSIPU) | **Pursuing** | **-** |
| **BCA (Bachelors of Computer Application)** | Banarsidas Chandiwala Institute of Information Technology (GGSIPU) | **2025** | **PERCENTAGE: 86.20** |
| **12th Grade** | Dashmesh Public School (CBSE) | **2022** | **PERCENTAGE: 78.83%** |
| **10th Grade** | Dashmesh Public School (CBSE) | **2020** | **PERCENTAGE: 78%** |

## EXPERIENCE

**Front-End Intern** **IBM SkillsBuild** **June 2024 – August2024**

- Developed a web-based solution, Marine Minds, aimed at raising awareness and promoting conservation efforts for marine ecosystems.
- Designed and implemented responsive user interfaces using HTML, CSS, and JavaScript, ensuring seamless user experience across devices.
- Applied software development methodologies, including requirement gathering, prototyping, and testing, to create an interactive and informative platform.
- Integrated real-time data sources and visualization techniques to enhance user engagement and awareness.
- Collaborated with a team to deploy the project using GitHub and presented findings on sustainable development solutions.

## PROJECTS

**Online Voting System**
***Technologies:*** *PHP, MySQL, JavaScript, HTML, CSS*

- Developed a secure online voting system with encrypted storage, role-based access, and real-time vote tallying.
- Designed an admin dashboard for managing registrations, candidate lists, and result computation.

**Key Achievement:** Built a fraud-resistant system, improving election efficiency and transparency.

**College Management System**
***Technologies:*** *Python, Django, SQLite, HTML, CSS, JavaScript, Bootstrap*

- Built a platform for managing student records, courses, and faculty using Django and SQLite.
- Implemented role-based authentication and a responsive front-end with Bootstrap.

**Key Achievement:** Streamlined academic operations while enhancing data security.

**Automated Waste Segregation System**
***Technologies:*** *CNN, Flask, HTML, CSS, JavaScript*

- Developed a waste classification system using CNN for recyclable, organic, and non-recyclable waste.
- Created a responsive UI with Flask integration for real-time classification results.

**Key Achievement:** Developed a scalable, smart waste management solution.

**Tic-Tac-Toe Game**
***Technologies:*** *HTML, CSS, JavaScript*

- Created an interactive web-based Tic-Tac-Toe game with dynamic gameplay and a responsive UI.
- Implemented game logic and turn indicators using JavaScript.

## LANGUAGES AND TECHNOLOGIES

- **Languages -** Python, C++, PHP
- **Markup languages -** HTML, CSS
- **Frameworks –** Django
- **Web Technologies –** BootStrap, Tailwind CSS
- **Tools -** GitHub, ChatGPT
- **Databases –** MySQL, PHP-myAdmin

## ACCOMPLISHMENTS

**Certificates**

- IBM Front End Web Development certificate
- Intellectual Property Rights Workshop certificate
- International Research Seminar certificate

## ADDITIONAL INFORMATION

**DATE OF BIRTH:** 22 SEP'05
**ADDRESS:** House no. 8/321, Khichripur, Delhi-110091
**LANGUAGES KNOWN:** English, Punjabi, Hindi
